

## Meter Contracts to Help Cut India Water Losses

By Randall Hackley - Jun 20, 2013 9:16 PM GMT+0530

[Itron Inc. \(ITRI\)](#), a maker of smart meters that reduce waste and energy, have been awarded a contract by India's biggest engineering company to help curb water losses and improve infrastructure in the New Delhi area.

[Larsen & Toubro Ltd. \(LT\)](#) selected Itron to provide 120,000 advanced meters to Delhi Jal Board as part of a project to measure usage and more effectively deliver water to Delhi residents, the Liberty Lake, Washington-based company said in a statement.

Itron also won a contract from [SPML Infra Ltd. \(SPML\)](#) to provide 90,000 meters to DJB in the Malviya Nagar, Vasant Vihar and Mehrauli areas of Delhi. A group led by Suez Environment and **SPML** aim in a pilot program to improve water distribution, ensure service throughout the day and reduces water losses. No contract terms were disclosed.
