SPML Infra Ltd., a leading infrastructure development company engaged in the areas of waste-water treatment, water supply and management, sewer line rehabilitation as well as power development, distribution and transmission, secured orders worth Rs. 772.20 crore. Two of the orders from Public Health Engineering Department (PHED), Rajasthan valued at Rs. 607.60 crore are for water supply schemes.

The other order that SPML bagged is from BWSSB, Bangalore, which is valued at Rs. 164.40 crore. The first-of-its-kind project from BWSSB is for reducing non revenue water (NRW) from Bangalore city. SPML will complete the project in Bangalore with SUEZ Environment by deploying modern technology for leak detection as well as installing DMA meters among other steps.
