

India's largest circulated weekly on new projects

## Bengaluru

The Bangalore Water Supply and Sewerage Board's BWSSB (II) Contract W3, which was awarded to SPML Infra Ltd has been partially completed this year. The turnkey project includes the construction of clear water reservoirs and pumping stations and associated electro-mechanical works. The pumping stations are capable of pumping 500 million litres of water per day in suburban T.K. Halli, Harohalli and Tataguni.
