SPML Infra receives new order worth Rs. 594 cr in Gujarat in India

SPML Infra Ltd, India's infrastructure development company, has received a new order worth Rs.594 cr from Bhavnagar Irrigation Project Division, Gujarat. The order from Gujarat will develop infrastructure for water supply to Bhavnagar. This project is a part of Saurashtra-Narmada Avtaran Irrigation Yojana (Sauni Yojana) that has been initiated by the Govt. of Gujarat to divert excess over-flowing flood water of Narmada River. Excess over-flowing flood water of Narmada River will be brought to Dholidhaja Dam near Surendra Nagar. It will be distributed to 115 reservoirs of seven districts of Saurashtra through 1,115 km long four link canals. This will benefit 10,22,589 acres of land. The scope of this project includes laying of 40.75 km MS Pipeline of 3000 mm diameter with plate thickness of 17.5 mm apart from 13,475 m³/hr pumping station at Chainage.
