

SPML Infra received new orders worth Rs. 721 crores

On Mar 10, 2014

SPML Infra announced that the company has received two new orders worth Rs 594 crore from Bhavnagar Irrigation Project Division Gujarat for water supply infrastructure development and Rs 127 crore order from South Bihar Distribution Company for strengthening, improvement and augmentation of electricity distribution system in 11 towns in Bihar.

It said the Gujarat project was part of the Saurashtra Narmada Avtaran Irrigation Yojana that has been initiated by the State Government to divert excess overflowing flood waters of the Narmada river to allocated Saurashtra region.

Excess flood waters of the Narmada river will be brought to Dholidhaja Dam near Surendra Nagar and will be distributed to 115 reservoirs in seven districts of Saurashtra through a 1,115-km long, four link canals, benefiting 10,22,589 acres of land.

"The scope of this project includes laying of 40.75 km of MS pipeline of 3,000 mm diameter, apart from pumping stations. SPML will also be responsible for 66 KV outdoor type substations with all allied works and operations and maintenance for 10 years after the commissioning," it said.

The Rs 127-crore order from Bihar is for survey, network design, installation, erection, testing, commissioning, including performance test of all the equipment supplied under the supply contract for augmenting power distribution in Sultanganj, Baka, Naugachiya, Munger, Sheikhpura, Barbigaha, Jamalpur, Lakhisarai, Jhajha, Barhiya and Jamui.

"We are happy that SPML Infra has become the only Indian water management company to be listed in world's top 50 private water management companies. Over the last three decades, we have executed almost 600 projects," said Rishabh Sethi, Chief Operating Officer, SPML Infra.
