

200 MLD Water Treatment Plant

PROJECT AT A GLANCE:

SPML Infra has completed and commissioned the 200 MLD Water Treatment Plant at Surajpura, Rajasthan to enhance the existing capacity from 400 MLD to 600 MLD. With the new treatment plant, water supply to Jaipur city will be increased to cover newly developed colonies and other areas to reduce the city's dependence on existing sources and consequently bring down pressure on the ground water. The Water Treatment Plant are capable to treat raw water from Bisalpur Dam taking into account the variation in raw water quality throughout the year and possible deterioration in future to stipulated treated water quality and quantity. The project was inaugurated by Hon'ble Chief Minister of Rajasthan in December 2015.

Description	Details in Brief			
Name of the Project	Construction of 200 MLD Water Treatment Plant			
Location	Surajpura, Dist. Ajmer, Rajasthan			
Client	Public Health Engineering Department (PHED), Jaipur			
Contract Value	122.50 Crores			
Scope of Work	1. Construction of 200 MLD water treatment plant 2. Construction of clear water reservoir, 30 ML at Balawala and 25 ML at Surajpura 3. Supply, installation, testing and commissioning of 12 nos pumps of 2500 m ³ /hr with 88 mtr head along with all electrical, mechanical & instrumentations works			
Treatment Technology	Pulsator and Aquazer Variable Filter			
Water Quality	Parameter	Turbidity (NTU)	Colour (HZU)	Ph
	Raw Water	1000	45 HZU	7.8
	Treated Water	< 0.5	5 TCU	7-8.5
Status	Commissioned			

PROJECT AT A GLANCE
