

SPML to build smart infrastructure in MP

SPML Infra Ltd has won an order for smart infrastructure development from Vikram Udyogpuri Ltd. Valued at ₹350 crore, the order will be executed in partnership with Om Metal Infraprojects Ltd. The order is part of the upcoming Delhi Mumbai Industrial Corridor (DMIC).

The development of Vikram Udyogpuri has been selected as one of the early projects under the development plan of Pithampur-Dhar-Mhow Investment Region which is one of the 24 regions of DMIC. The proposed site of "Vikram Udyogpuri" is located about 8 km from Ujjain and 12 km from Dewas and has a total area of 443.79 ha. The Madhya Pradesh government and Delhi Mumbai Industrial Corridor Development Corporation intend to facilitate development of trunk internal and external infrastructure for Vikram Udyogpuri.

Scope of work: Under this project scheme, SPML Infra will be developing smart infrastructures for 24x7 water supply with water treatment plant and pumping station, water supply conveyance from Shipra river to the site, complete sewerage network with sewage treatment and

effluent treatment plants, storm water drainage system, solid waste management system, internal and external roads of 4 and 6 lanes, power transmission and distribution system, domestic gas distribution system, street lighting,

CCTV and SCADA system, safety and security system, information and communication technology (ICT) network with peripheral boundary walls. This is first of its kind of a mini smart city project which will have all smart utility con-

nected with technology for seamless services, a release from SPML Infra noted.

SPML Infra will execute this Design Build Operate (DBO) smart city project within three years followed by five years of operation & maintenance. ■

VA Tech bags first order in

VA Tech Wabag has won an EP&C contract for water and wastewater treatment plant for Al Shamaliya (AMAS) being developed by WABAG in Bahrain. This is the first project funded by the Dhahi Fund for Development (AFD). The project will design and construct Al Madina Al Sharifa. The Ministry of Housing and Urban Planning (MUP) AMAS is a reclaimed land on the coast of the Kingdom of Bahrain. With a total land area of approximately 750 ha, AMAS is planned for housing, business and industry. The town will accommodate 15,000 dwellings.

Istanbul man

Wabag also received a contract to manage Istanbul's water system. The project involves treatment of over 5 million litres of domestic and industrial effluent daily. The project includes three treatment plants, 50 supply and treatment plants and 100 treatment plants to handle over 100 million litres of water daily.
