SPML Infra Ltd which is an infrastructure development and water management company, is going to execute projects worth 6,000 crore in the next two to three years.

According to the Chairman S C Sethi, out of the total order book, water management projects comprise Rs 4,500 crore whereas Rs 1,500 crore is for the power sector.

He has said that “We are providing drinking water facilities to almost 40 million population through various projects in different states of India.”

He further said that the water project does include supply to six cities of Karnataka, apart from water supply improvement projects in south Delhi localities.
