

# SPML Infra Secures New Project Orders Worth INR 883 Crore

**SPML INFRA LIMITED** has received four new orders for water supply and irrigation projects with a combined cost of over INR 883 crores from Gujarat, Manipur, and Punjab.

The first and the largest single order received so far by SPML Infra Limited is worth INR 723.87 Crore for the Phase-3 of Saurashtra-Narmada Avtaran Irrigation (SAUNI Yojana), a project initiated by the State Government of Gujarat. The project envisages to divert one million acre feet (1 MAF) water to 115 Reservoirs through 1115 kilometer pipeline network to irrigate 1.8 million hectares of land and provide drinking water facility to 39 million people across 132 towns and 11,456 villages in Gujarat to address the scarcity of drinking water in Saurashtra, Kutch and North Gujarat regions. The Link 4B, Package 7 project has the scope of supplying and laying of 139 kilometers 1000-2700 mm diameters pipeline along with construction of pumping station and 10 years of O&M.

SPML has executed Phase-1 and Phase-2 projects under SAUNI Yojana and both were inaugurated by Prime Minister Narendra Modi in April 2017 and March 2019 respectively.

The second order received in a joint-venture with Shristi Infrastructure Development is worth INR 103.60 crore for construction of water distribution network and 24x7 domestic water supply along with sewerage management system and stormwater drainage network for Ludhiana Smart City with 5 years of O&M.

The two orders of INR 33.30 Crore and INR 22.31 Crore have been received for augmentation of water supply system in Senapati and Churachandpur districts in Manipur with the idea of promoting tourism under the North East Special Infrastructure Development Scheme (NESIDS).

Subhash Sethi, Chairman, SPML Infra Limited commented, "We are very happy that our association with SAUNI Yojana, India's largest irrigation and drinking water project

### Part of the Phase-II of SAUNI Project Executed by SPML

**PRIME MINISTER NARENDRA** Modi along with Vijay Rupani, the Chief Minister of Gujarat inaugurated Phase-II of SAUNI Yojana in Jamnagar, Gujarat in March this year.

SPML Infra has completed part of this project valued at INR 5001.48 million to feed Ranjit Sagar Dam at 24.4 km with scope

comprising of 36.6 km MS Pipeline of 3000 mm dia and 17.5 mm thickness with external 3LPE coating and internal food-grade epoxy coating, pumping station comprising 5 nos. pumps, each of 12760 m<sup>3</sup>/hr capacity, 66 kV substation, SCADA system complete with civil and structural works with 10 years of O&M.

is further strengthened with the repeat orders and the largest one received recently. Our experience in executing urban water supply projects

in different states has given us the advantage of getting the water distribution and sewerage management project for Ludhiana Smart City. The

water supply augmentation projects in Manipur will help us in making inroads to more water projects in North-Eastern states."

### SPML Recognized as "Best Company in Water Management" at CIA World Construction & Infra Awards 2019

**SPML INFRA RECEIVED** the award at a ceremony organized by EPIC Media Group in Mumbai on 26th February 2019. SPML won this award for being India's leading water management company promoting access to drinking water services to all. With almost four decades of experience and having a pan India presence, it has executed 600 turnkey projects and created significant value for the country. Through several completed projects, it is providing drinking water facilities to over 40 million Indian population.

Abhinandan Sethi, Chief Operating Officer, SPML Infra Limited commented, "Our sincere thanks to the EPIC Media Group for appreciating our work in the water sector in India. This award is a testimony to our 4 decades of development with a conviction to reform India's water infrastructure."
