## **SPML Infra JV Secures International Order worth USD 32.01 Million for Rehabilitation and Completion of Kpong Left Bank Irrigation Project in Republic of Ghana**

**Kolkata, January 18, 2018**

SPML Infra Limited with its joint venture partner OM Metals Infraprojects has secured an international order from Ministry of Food and Agriculture, Republic of Ghana for the work related to rehabilitation and completion of Kpong left bank irrigation project in Ghana, Africa for USD 32,012,453 (INR approx. 205 Crore).

The scope of work includes modification of existing supply canal, main canal, cross regulators and installation of new distribution structures. This World Bank funded project has a time line of 18 months to complete. The Letter of Intent (LoI) received by the JV last week and the projects will be executed within the given period.

**Mr. Subhash Sethi, Chairman, SPML Infra**, commented, *"We are delighted with the new order from Ghana. This is the second order from African countries after we have received an order from Rwanda last year. It is an opportunity for both SPML Infra and OM Metals to become reliable partner for the sustainable infrastructure development in Ghana and other African countries. We are sure that our rich experience in drinking water management and irrigation will help us in delivering the projects on time with excellence in execution and EPC services. We are committed to a long term association with African countries to provide complete EPC solutions for water and power projects combining customized engineering, procurement, project management using modern technologies, meeting timelines and conforming to international safety standards."*

About SPML Infra Ltd.:

SPML Infra is a leading infrastructure development company of India. With over three decades of experience, it has executed more than 600 projects and created significant value for our country that have touched the lives of millions of people; be it provision of drinking water, improved sewerage facilities, better municipal waste management, and lighting up homes.
